Postgraduate Program in Transport and Traffic

Distribution Dates of Study Guide Materials in Semester 2 2009

Semester 2 starts on Monday 20 July 2009.

Study guide material for the Postgraduate Program in Transport and Traffic will be put into the postal system by the Off-Campus Learning Centre (OCLC) Monash Gippsland Campus on or about *Friday, 3 July 2009*. In this distribution, study material will be sent to all students enrolled prior to that date.

If you re-enrol after the *Friday, 3 July 2009* date, study guide material will be sent out in catch-up distributions.

Please allow the postage time it takes for the mail to get to you from the OCLC Monash Gippsland Campus. Therefore, if your study guide material is to be mailed to an overseas destination this will impact on delivery timeframe. The website address for OCLC is: <http://oclc.monash.edu.au/connection/>.

In case of mail delays or late distribution, there is another mechanism for you to obtain access to that study material. All study material will be available on the Monash University MUSO website <https://my.monash.edu.au/muso/blackboard/login/> to download approximately ONE week prior to commencement of Semester 2. You will be able to access the study guide material for units you are enrolled in at all times during the semester. You should arrange to set-up your authcate username and password to gain access to MUSO via the above website.
