About CAITR

The 24th Conference of the Australian Institutes of Transport Research (CAITR-2002), will be hosted by the School of Civil and Environmental Engineering, University of New South Wales, from **Wednesday 4th to Friday 6th December 2002**. CAITR-2002 provides an opportunity for all transport researchers to discuss their work and meet with peers and colleagues in a supportive, informal environment and to be part of a network of expertise. CAITR is a particularly valuable forum for student researchers (PhDs, Masters and Undergraduates by Research), giving them the chance to present work in progress, receive constructive feedback and improve their presentation skills. A representative of each organisation will also be given the opportunity to present a summary of research activities since the previous CAITR conference.

Call for Abstracts

If you are interested in presenting a paper at the conference, please submit a 150-300 word abstract to the address below by **Friday September 27th 2002** (late submissions may be

accepted until 15 October 2002). [E-mail submissions are preferred](#) - please put "CAITR-2002_ABSTRACT" in the subject line. Submissions must contain the name, affiliations and contact details (address, telephone, e-mail) of all the authors, and indicate who is the contact author.

Prizes

Two student prizes will be awarded: The Robert L Pretty Memorial Prize for the best undergraduate student paper and The Rodney Vaughan Memorial Prize for the best postgraduate research student paper. These prizes are offered thanks to the continuing generous support of Akcelik and Associates and The Urban Transport Institute (TUTI).

Information for Authors and Presenters

As with past CAITR conferences, presenters are required to bring along 60 two-hole punched copies of their final papers. If necessary, the UNSW campus has commercial photocopying facilities. A short biography of each presenter also need to be submitted on registration.

As a diversity of researchers attend CAITR, papers should explain any technical detail and concept. The front page of each paper should include the authors' names, affiliation, relevant contact details, as well as an abstract. Please also send an electronic version of your paper to Peter Hidas - these will be loaded onto the permanent CAITR web site maintained at ITS-Monash after the conference.

An IBM-PC compatible computer running PowerPoint 2000 under Windows 2000, data projector, overhead projector and slide projector will be available. Presenters are encouraged to bring their PowerPoint files saved in PC-format on floppy disk, ZIP-disk or CD-ROM. If presenters are concerned about compatibility or if they are using other presentation software or hardware (eg. Mac), they must bring their own laptop and necessary cables for computer projection.

Conference Venue

The venue for the conference is Room 109, School of Civil and Environmental Engineering, UNSW, building H20 at the Kensington Campus (see Campus Map at the end of the brochure). All conference sessions, lunches and tea breaks will be held in the Civil and Environmental Engineering building.

Conference Dinner

The Conference Dinner will be held on the evening of Thursday, 5 December at the Boardwalk Cafe, 56 Carr St, Coogee, with ocean views to Coogee Beach, about 20 minutes walk from the Kensington Campus. The cost is \$35.00 per person, and includes a three course - three choice dinner. Beverages are at your own cost. The restaurant is fully licenced and BYO. Accompanying persons are welcome.

Parking

The nearest parking station to the Civil Engineering Building is via Botany Street Gate 11. Casual visitors must purchase tickets from the parking meters.
